Sinar Care Protection

Your Solution Provider
Full Warranty with 100% Value Retention

SCP (Sinar Care Protection) Warranty with Full Service

This unique "All-Around Worry-Free Full-Service" offer for Sinar Digital Backs heralds a new dimension in the performance of digital products, because it is refreshingly and thoroughly different from all other currently available warranties. The SCP safeguards complete value retention of the photographer's investment for many years, providing him or her with the peace of mind of completely risk-free operation. Sinar covers all the costs of repairs and shipping and offers a free-of-charge exchange for a new digital back to suit your needs (after 12 months at the earliest). The user thus gains the ability to work continuously with the latest technology, without having to worry about further investments. Sinar also practically eliminates downtime caused by repairs by providing free-of-charge, uncomplicated and very fast product replacement.

Value Retention

SCP is based on the 100% billing of the yearly premium, which provides the user with the complete value retention of the digital back.

Service Book

All service work is registered in the service book of the digital back and is covered by a worldwide guarantee.

Transferable

The entries of all service work and yearly premiums in the Service Book can be transferred to the next buyer of the digital back.

Secure Investment

Future large investments are eliminated and current operating costs can be planned and budgeted accurately.

Free-of-charge Replacement

The SCP customer has access to free-of-charge equipment replacement. There are no additional charges for shipping or customs duties.

Overview of Costs

Fixed moderate yearly premiums provide convenient cost control while pre-financing your next digital back at the same time.

Support

E-mail and telephone support is available to you free of charge via your authorized dealer.

Free upgrade

At any time after only 12 months you are entitled to trade in and to upgrade your equipment.

Flexibility and Innovation

With SCP (Sinar Care Protection), Sinar is offering a comprehensive solution for Sinar Digital Backs. This Sinar innovation represents an entirely new level of customer care, creating the foundation for the highest customer satisfaction. The SCP offers an encompassing solution for service, support, equipment replacement, Software updates and upgrades of future digital backs without the worry about having to deal with unexpected costs later on.

Until now, the subject of value retention has received only limited attention, so that the SCP absolutely constitutes a worldwide innovation. With this innovative offer, Sinar accompanies its clients and provides them with a comprehensive solution for security, profitability and the latest technology.

SCP is a clear proof of the Sinar policy of providing high grade professional premium service.
