

Product designation

Infrared transmitter IRX 2

Article no. 36.116.00

Product description

The infrared transmitter is used for wireless, synchronized release of the broncolor flash units by the hot shoe or synchronous contact of the camera or the flashmeter. It has a suitable fixation base for the hot shoe with ISO centre contact. The IRX 2 transmitter features a switchable two-channel system with an exceptionally large operating range.

Scope of delivery

Transmitter with 1 sync cable and 2 batteries

Technical data

Number of channels	2
Range	approx. 10 m (32.8 ft.)
Trigger sequence per s	1
Power supply	2 AA alkaline batteries 1.5 V or 2 accus AA, NiCd 1,2 V
Dimensions	81 x 41 x 41 mm (3.2 x 1.6 x 1.6 in.)
Weight	150 g (0.3 lb)

Compatibility

broncolor products with an integrated IR receiver may be released with this unit (including Minipuls C).

Application

The transmitter is ideal for use in the studio. Due to the high transmitting power IRX 2 is especially suitable for large studios, on location and for studios with non-reflecting walls.
